

MGM Warehousing & Distribution For Better Logistics Management And Better Profitability

Whether delivering to a warehouse, store or home, MGM offers complete, customized logistics services for manufac-

turers and retailers. From warehousing and distribution to consolidation, we manage every aspect of the supply chain to ensure your business runs smoothly and cost effectively.

MGM has created a customizable, seamless supply chain distribution system throughout the U.S. This flagship program involves complete customer integration, inventory visibility and control and purchase order monitoring within your current IT framework. Our Eden, NC, distribution facility includes over 500,000 square feet of rack and bulk storage space, as well as specialized light assembly areas. We combine the best technology with the best people to ensure your products arrive as promised, on time and in perfect condition.
